

## Door Frame Profiles

### DOORFRAME

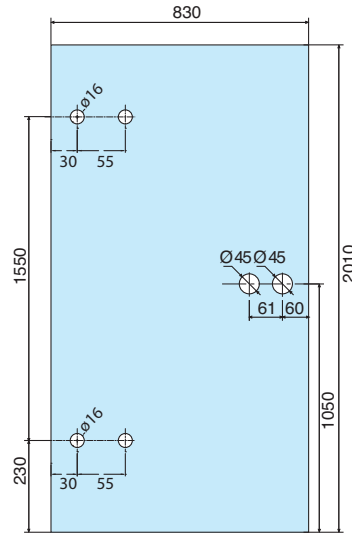

**Technical features**

- For doors of 8, 10 and 12 mm. thick toughened glass
- For fixed panels of 8, 10, 12 and 15 mm
- Profile allowing several different hinges
- Compatible with lock series LUMIRA, LUMIRA vertical, BASTILLE, LAGUNE
- A blocking roller keep can be installed so handles or door knobs can be used
- Possible installation of an electric release keep (see chapter access control)
- Allows an easy integration of a glass door in a Securit set
- Use KL001 and KL002 profiles recommended to fix the frames
