

PREFIT Flexystack

Flexibility in Retail and Residential Partitioning.

FLEXYSTACK is a unique sliding stacking Shopfront or Partition system.

The FLEXYSTACK system defines a clear division, offering privacy between work or meeting areas and residential applications.

Each panel can be up to 250kg or 500kg when upgraded to the similar PREFIT FLEXIROL system, yet remain simple and easy to operate.

FLEXYSTACK is fully compliant to DDA regulations.
