SHOWER ROOM STYLE IN ACTION

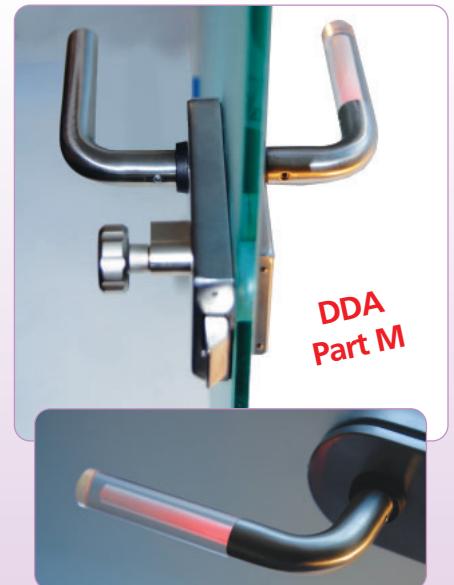

SMART SQUEEGEE - PRACTICAL AND ATTRACTIVE GREAT SHOWER ROOM INNOVATION FROM PREFIT

Smart Squeegee is an essential maintenance tool, designed to keep your shower room or cubicle looking good at all times. Removing water droplets from your shower screen prevents a potential build up of limescale, in hard water areas and clears away soap which can also spoil the appearance of the glass or acrylic screen.

Smart Squeegee from Prefit, does this with style. This attractive, slimline squeegee has a chrome finish which repels water and which will match any wet room or shower room installation.

Smart Squeegee also comes with a spare blade and a simple yet effective suction fitting which avoids the need to drill. This allows you to remove for cleaning or for repositioning. As it is an attractive item, you may wish to display prominently or discreetly to avoid jealousy. Don't spoil the look of your shower cubicle or bathroom with a plastic car windscreen squeegee, use the practical and attractive **Smart Squeegee** to enhance your shower room with a bit of Prefit style.

DDA COMPLIANT HANDLES

Brighthandle is a truly innovative concept for Glass door hardware design. Created by internationally-renowned Swedish designer, Alexander Lervik, **Brighthandle** offers unique style and function. The cutting edge design utilises a choice of coloured LED's to communicate the lock status, which is activated by a practical thumbturn.

Brighthandle creates a truly bespoke theme to all applications such as cloakroom, locker/changing room, Private conference/office etc and is suited to market sectors such as Hotel, Leisure, Stadia, Retail, Commercial and residential fit out. Due to its key feature of illumination it is also DDA compliant (Document M).

Brighthandle technology is wire free, and is used in association with the **Prefit lever lockset**, keeping the aesthetics minimal and showing the harmony between Glass, Light and Steel.

Brighthandle is an exclusive new product from **Prefit** in association with **Assa Abloy** and leads the way in glass door design and innovation.

DECOR - THE QUALITY SLIDING DOOR SYSTEM IN A BOX

Decor - 'the all in one' Sliding Door System in a box - is now in stock.
