

## HINGES FOR CABINETS

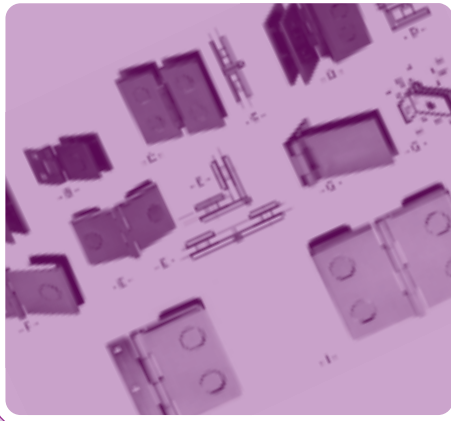

PREFIT do not only supply hinges for large doors.

Within their SHOPFIT catalogue is a large selection of hinges for cabinet and showcase doors.

The range includes top and bottom pivoted or side hung hinges in a variety of finishes and styles.

These can be matched to a range of locks and handles that complement each manufacturer.

## FLOOR CLOSERS

Said to be one of the most adjustable floor closes available the 4200 range from MAB give outstanding closing performance.

With adjustment up and down and sideways in any direction it gives the end user a great deal of flexibility and with interchangeable spindles, it really does the lot.
